- **Java-Based Online Voting System**

Built an online voting system using Java, aimed at providing a seamless and secure voting experience, reducing the need for physical queues.

Technologies Used: Java (Java AWT and Java Swing)

Achievements: Enhanced accessibility and security in the voting process by reducing manual intervention and streamlining the voting procedure.

Work Experience

Dorcas Creation Kenya, Kamae, Kahawa West, Nairobi

IT Technical Support | January 2024 - February 2024

- Transitioned data storage from physical to cloud-based systems, enhancing data accessibility.
- Advised management on software solutions, improving staff collaboration and efficiency.
- Guided the organization in maintaining and updating their website for better online presence.

Certifications & Courses

- **Computer Networks (CCNA: Introduction to Networks) - Issued by CISCO**

[View Badge](#)

- **Data Protection Certification - Issued by Strathmore University**
- **Artificial Intelligence Fundamentals - Issued by IBM**

[View Certificate](#)

Extracurricular Activities

- Active member of the Google Developers Group (GDG) at Strathmore University.
- Member of the IEEE Club, participating in various tech and innovation events.
